1 Algorithms are important for interview 1

2 SQL

2.1 Inner join, outer join

- Inner join, outer join
- foreign key
- Database Sharing, indexing
- noSQL, key and value

3 Shuffling array

```
shuffleArray int[] arr
len = arr.length
Random ran = new Random()
for i=0 i<len - i i++
  r = ran.nextInt(len - i)
  tmp = arr[len - 1 - i]
  arr[len - 1 - i] = arr[r]
  arr[r] = tmp</pre>
```
